New York Nanoscience Discussion Group

Tuesday, September 23, 2008
Silver 1003
Refreshments:  7:00 pm
Science:  7:30 - 9:00 pm

Speakers - not necessarily in this order:

Ralf Warmuth
Rutgers University, Department of Chemistry and Chemical Biology
Dynamic Covalent Synthesis of Nanocapsules

Ruben L. Gonzalez, Jr.
Columbia University, Department of Chemistry
Coupling of tRNA and Ribosome Dynamics During Translation Elongation

Dmitry A. Garanin
Lehman College, CUNY, Department of Physics and Astronomy
Quantum Dynamic of Domain Walls in Molecular Magnets

Sessions feature three 30-minute presentations on nanoscience, one each with strong orientation in biology, chemistry, and physics/applied mathematics. Presentations will be focused on discussion of recent work, although speakers will be expected to place the work in a context understandable to a broad audience.

Joint Meeting with Nanoscience Topical Group New York Section, American Chemical Society
