New York Nanoscience Discussion Group

Tuesday, October 9, 2012
Silver 1003
Refreshments: 7:00 pm
Science: 7:30 - 9:00 pm

Speakers - not necessarily in this order:

Margaret E. Rice
New York University School of Medicine
Departments of Neurosurgery and Physiology and Neuroscience
H₂O₂: A Dynamic Neuromodulator

William Sherman
Bard High School Early College – Queens, Department of Physics
DNA Nanostructure Design Factors – How to Understand and Work With Them

Huixin He
Rutgers University, Department of Chemistry
Sensing Platforms Based on Carbon Nanomaterials and Their Self-Assembled Structures

Sessions feature three 30-minute presentations on nanoscience, one each with strong orientation in biology, chemistry, and physics/applied mathematics. Presentations will be focused on discussion of recent work, although speakers will be expected to place the work in a context understandable to a broad audience.

Joint Meeting with Nanoscience Topical Group New York Section, American Chemical Society
