

New York Nanoscience Discussion Group

Tuesday, November 29, 2005
Silver 1003
Refreshments: 7:00 pm
Science: 7:30 - 9:00 pm

Department of Chemistry
New York University
100 Washington Square East
New York, New York 10003

Phone: 212-998-8478
Fax: 212-260-7905

Speakers - not necessarily in this order:

Rasti Levicky

Department of Chemical Engineering, Columbia University

Properties and Applications of DNA Monolayers

Daniel Stein

Departments of Physics and Mathematics, New York University

Theory of Metastability in Simple Metal Nanowires

Rudolfo Llinas

Department of Physiology and Neuroscience, NYU School of Medicine

Neurovascular Approach to Brain Function using Polymer Nanowire Techniques

Sessions feature three 30-minute presentations on nanoscience, one each with strong orientation in biology, chemistry, and physics/applied mathematics. Presentations will be focused on discussion of recent work, although speakers will be expected to place the work in a context understandable to a broad audience.

*Joint Meeting with Nanoscience Topical Group
New York Section, American Chemical Society*
